My dear Sister, Mrs,

CELEBRATING TWO YEARS OF PURPOSE, LEGACY, AND IMPACT

Last year, what we held were memories, tears, and the weight of a legacy entrusted to us. Today, what stands before us is living proof that love can be translated into action, and vision can outlive the visionary.

Carrying forward the dreams and vision of our dear mother, Patience Umo Eno, is no small responsibility — yet you have done it with grace, strength, excellence, and unwavering commitment. You did not merely assume a position — you embraced a calling.

Through GIFA, her voice still speaks. Her compassion still reaches the vulnerable. Her heart for humanity still beats in every life touched. GIFA is not just a foundation; it is love in action and vision sustained. It is a living memorial. Congratulations on this remarkable milestone. Two years of impact. Two years of resilience. Two years of honouring legacy through service.

In support of the tremendous work being done, and as an organization that believes deeply in this mission, we are honoured to support the incredible work GIFA is doing to serve humanity. It is our affirmation of the vision, our endorsement of your leadership, and our shared commitment to ensuring that Mum's light continues to shine brightly.

May the years ahead be filled with deeper reach, and multiplied impact. May strength never depart from you. May wisdom guide every decision. And may GIFA continue to stand as a testament that love, when stewarded well, becomes generational.

I am so proud of you.

With love

Ebong ENO
GMD/CEO
